

# Underpads

- **Superabsorbent**
- **Physioanatomic**
- **Soft**
- **Comfortable**
- **Practical**

## Functional Features

Suitable to protect the skin of bedridden people from rashes. Barrier to liquids inside.

## Materials:

**TOP SHEET** – Non tissue, hypoallergenic sheet covers the whole surface next to the skin.

**ACQUISITION LAYER** – Accelerates the absorption reducing liquids leakage.

**CELLULOSE** – Compact and absorbent fluff mass made of pure cellulose in a double layer for a perfect absorption in the micturition area.

**POLYETHYLENE** – Impermeable but transpirant external support.

**STICKERS** – Four refastenable adhesive tapes

**WET INDICATOR** – Non toxic ink indicating the progressive absorption of liquids

**POLYMERS** – Superabsorbent, non toxic, gelatinize liquids.
